

You're in the Picture!

Come and see the work on display in the exhibition ***From Another Perspective: The Francis and June Spiezer Collection***. Take some time and use your imagination to put yourself into each piece of artwork. Imagine how you would look, how you would feel and what you would do in each situation.

Imagine you're the figure sitting in the chair in Nicolas Africano's *The Recording*

What would you be wearing?

How would you be sitting?

What object would be in the room with you?

Shrink yourself down to about five inches tall and walk into Emily Brock's *City Bar*

Who is there with you?

What do you have to eat and drink?

What city are you in?

Find Nina Levy's *Smile*. If you were creating a sculpture of your own mouth – what emotion would you show and how?

Draw it here:
